Shahid Afsar Patel

SDET/QA

PROFESSIONAL SUMMARY

Proficient software testing professional with expertise in manual and automation testing using Cypress and Selenium. Strong problem-solving skills and adaptability to new technologies. Known for effective communication and collaboration, ensuring efficient bug resolution and smooth project workflows.

WORK EXPERIENCE

Codex Labz Technologies

Quality Assurance Intern

January 2023 - May 2023

Job responsibilities:

- Assisted in developing and executing comprehensive manual and automation testing strategies for web and mobile applications.
- Performed thorough functional, regression, and exploratory testing, focusing on identifying software issues across various platforms.
- Developed detailed test cases and maintained meticulous documentation to ensure clear and effective communication of identified bugs.

PROJECTS

1. E-commerce-Website- Automation Testing | 🌐

JavaScript | Cypress

- Designed and developed automated test scenarios using Cypress for key e-commerce functionalities such as user registration and checkout process.
- Collaborated with the development team to gain a deep understanding of the OpenCart platform capabilities and user requirements.
- Utilized Page Object Model (POM) to create a scalable and maintainable testing framework, enhancing code reusability and readability.

2. E-Commerce Website - Manual Testing | 🌐

Responsive Web Design

- Designed detailed test scenarios for key functionalities such as 'Login,' 'Logout,' 'Search,' 'Payment,' and 'Add to Cart' to identify software issues.
- Collaborated with the development team to ensure understanding and coverage of all functional requirements.
- Documented and tracked test cases and results using Excel to ensure efficient reporting of identified issues.
